

Hertfordshire County Council

Special Educational Needs and Disability Five Year Strategy

April 2018 – March 2023

Shaping The Future of SEND in Hertfordshire

Our Vision: All children and young people with SEND 0-25 have access to high quality local provision that meets their needs. Schools, early years settings, colleges, services, families, other partners and the Local Authority work together to support children and young people to make good progress and achieve the best possible outcomes that prepare them effectively for adulthood.

Introduction

Children and young people achieve better outcomes when we work together with that as our clear focus. This vision is at the heart of our five year SEND Strategy which builds on what has already been achieved.

Success in making the vision a reality relies on collective commitment and joint responsibility between the Local Authority (LA), schools, colleges, early years settings, services and other partners, including health. Parents and the voluntary sector have a shared commitment to the strategy and are partners in ensuring that it meets the needs of children and young people.

All partners are represented on the [SEND Executive Board](#) driving and monitoring the strategy. The [governance and engagement structure](#) shows the links with other key groups.

The workstreams from the previous SEND Strategy (2015-18) completed all or most of their activities during that period. The [workstream reports are on the Local Offer](#). We will ensure that the outcomes of the work are taken forward and a summary of the achievements of the previous workstreams, how the work is being embedded and how the impact is being monitored are in the reports.

Context

The Local Authority and its partners work within the statutory requirements and guidance of the Children and Families Act, 2014 and the SEND Code of Practice and the clear agenda of SEND reform and culture change:

- a person-centred, joined-up approach to identifying and meeting the needs of children, young people and their families;
- increased engagement and participation of young people and families so that they have greater choice and control, are listened to and their concerns are resolved swiftly;
- a published local offer of support, services and provision, how to access it and how to raise concerns or seek redress;
- the use of effective practice, data and wider intelligence and independent assessment to drive improvement;
- clearly-defined and understood roles and responsibilities; and
- increased integration of services and joint commissioning across the LA and Health.

A joint Local Area SEND inspection of Hertfordshire took place in July 2016. This looked at how well all partners were implementing the SEND reforms and identified a number of areas for improvement which have been responded to through a post inspection action plan. The work carried out through this strategy will make a significant contribution to sustaining these improvements.

The national priorities in implementing the reforms three years on were highlighted at the November 2017 Parent/ Carer Forum national conference by Ann Gross,

Director of Life Skills, Disadvantage and SEND at the Department for Education:

- Ensuring SEND covers SEND Support, not just those children and young people with Education, Health and Care Plans
- Improving quality and outcomes
- Funding and value for money
- Inclusion in the context of increasing diversity of schools and colleges
- Working with partners

Our Strategy reflects and takes account of these priorities and it is more important than ever that all partners work together to share information, expertise and resources to ensure positive outcomes for children and young people with SEND.

National developments help steer our work but we will continue to identify the specific issues we need to address in Hertfordshire. Our SEND strategy is linked to the [Council's Children's Services Plan](#).

Our Jointly Agreed Commitments

- every child and young person will have their needs identified and assessed
- every child and young person is entitled to high quality provision appropriate for her or his individual needs
- local schools, early years settings, colleges, services, agencies and the LA have a shared accountability for ensuring children and young people achieve the best possible outcomes
- there will be a continuum of provision matched to need, with as many children and young people as possible having their needs met in universal settings
- roles and accountabilities will be clear and focused on the needs of the child and young person
- information, funding and decision making will be transparent and without unnecessary bureaucracy
- resources will be used effectively and equitably
- there will be a focus on developing preventative and early intervention approaches
- children, young people and their parents participate fully in decisions about provision and services
- schools, early years settings and colleges will work collectively to share effective practice and make best use of resources
- the LA will facilitate capacity building so that local schools, early years settings and colleges are able to meet the needs of children and young people
- co-ordinated and integrated approaches will be developed and maintained with other agencies and voluntary organisations

Outcomes For All Children and Young People

Since the last version of our SEND Strategy a new '[Outcome Bees](#)' framework has been developed in Hertfordshire which aims to ensure a shared vision and overarching objectives for children, young people, young adults and their families (link 5).

This framework applies across Children's Services and all partners and the work carried out through our SEND Strategy contributes to these outcomes. For example:

Be Healthy – eg. Identifying needs early and accurately

Be Safe – eg. meeting needs in good quality local provision

Be Ambitious – eg. improving progress and broader achievements

Be Resilient – eg. Removing barriers to learning and wellbeing

Be Independent – eg. helping to prepare children and young people for adulthood

Be Happy – eg. Ensuring the views of children and young people are heard, listened and acted upon

What We Want To Achieve Through this Strategy

We want to achieve the best possible outcomes for children and young people. The following five broad strategic outcomes have been agreed for our SEND Strategy:

1. All schools, early years settings, colleges and services provide quality provision that meets the needs of children and young people with SEND locally
2. Short and long term outcomes for children and young people with SEND are improved and there is evidence of their achievements and progress socially, emotionally and academically
3. Communication between the local authority, parents, children and young people, and schools, early years settings, colleges and services is good, engendering trust, confidence, respect and constructive partnership working
4. Available resources are managed through a transparent approach that is fair, meets local needs and achieves best value for money
5. The local authority works proactively and collaboratively with parents, young people, schools, early years settings, colleges and other partners using co-production to improve service planning, design, delivery and review.

Local Delivery of the Strategy

Local partners work together in nine area [Delivering Special Provision Locally \(DSPL\) groups](#), each led by a mainstream headteacher, to implement the objectives of the SEND Strategy locally, reshape and commission provision in their area.

The Joint Area SEND Inspection found that the DSPL Area groups were well established and starting to make a positive difference to outcomes for children and young people. However there is more to be done to improve consistency so that the key features of success below are evident across all areas.

- ✓ **Ownership:** Local schools/settings using their knowledge and working in partnerships to plan and commission specialist provision and services
- ✓ **Facilities and Resources:** Appropriate provision and services identified through strategic planning. Access to a broader range of facilities/resources locally. Awareness and understanding of resources and available funding
- ✓ **Entitlement:** Needs driven, evidence based provision and services identified through strategic partnership and planning. Proactive and informed decision making
- ✓ **Capacity Building:** Greater local skills, expertise and confidence in meeting needs. More informed commissioning and shaping of services. More needs met locally
- ✓ **Satisfaction and Confidence:** High level of satisfaction and confidence in local provision and services meeting needs and improving outcomes. Co-production of services
- ✓ **Value for Money:** Equity on access to specialist provision and services, Needs met closer to home. More resources available for local provision

Themes

We need to continue to strengthen and embed these themes across Hertfordshire.

Theme 1 – Ensuring quality and effectiveness

Aim: To ensure there are clear expectations and a shared framework to evaluate the quality of SEND provision in all schools, settings and services

We expect all local schools and settings to provide a quality offer for any child or young person with SEND. We have provided a framework to support schools and settings to review and develop their offer in line with the SEND Code of Practice and Ofsted. We will collect evidence and feedback about how the framework is used and the impact on practice. We will act on feedback to improve practice and stakeholder experience. This will include the experience of children, young people and their parents.

We will also ensure all centrally and locally commissioned services for SEND and high level needs are delivering good quality, person centered outcomes, making impact and adding value by delivering evidence based interventions.

Theme 2 – Making best use of resources and building capacity

Aim: To maximise the value of our resources

We will ensure we have a sustainable SEND financial strategy that supports early intervention and inclusion in high quality local provision as close to home as possible. This will take into account demographic changes and patterns of need.

We will make data driven, informed and transparent decisions about priorities for the allocation of funding. We will use our resources equitably to get the best outcomes for children and young people and the most value for money. Where appropriate we will continue to devolve resources to schools, settings and partnerships and monitor the impact of those devolved resources.

Our resources include all those working with children and young people with SEND, parent/carers and young people. We will ensure there are arrangements to build their capacity, skills and confidence through access to improved, high quality information, advice, support and training. The Local Offer website will provide good quality, accessible and comprehensive information.

Theme 3 – Engaging stakeholders

Aim: To further develop communication, consultation and engagement of stakeholders

The engagement of stakeholders and partnership working is vital. DSPL will continue to provide the mechanism for local schools, settings, parents and other services to work together on strategic SEND issues. Co-production principles ([link](#)) guide the way we work together and we will revisit these to ensure they are consistently applied in practice. Co-production and engagement of parents, children and young people will be reflected at strategic and individual level.

We will continue to seek engagement of stakeholders through DSPL, including opportunities for greater alignment with other local partnerships.

Workstreams

Achieving the best possible outcomes for children and young people requires us to continue to review services and provision to ensure they are targeted to needs and that we are making effective and equitable use of our available resources. The work will be managed through a number of workstreams.

Inevitably needs of children and young people with SEND have changed and will continue to change. Our services and provision need to respond to these changes. Our work requires existing provision to be re-shaped and funding to be re-focused to areas of new need and changing priorities.

The workstreams below reflect the initial strategic priorities. The details of named leads, intended outcomes, action plans, timescales and who's involved can be found in the [workstream briefs or reports here](#). Overall progress will be monitored by the SEND Executive Board to ensure overall coherence in service developments.

Behaviour and Social Emotional and Mental Health (SEMH) Vision A flexible continuum of support is in place in each area to ensure that children and young people with significant needs affecting their behavior and / or mental health can access their entitlement to education provision and their outcomes improve	Specialist Provision Vision A pattern of specialist provision is strategically planned on the basis of evidence of what is required now and in the future. This enables the needs of more children and young people with complex SEND to be met as close as possible to their home and local community.
Targeted SEND Support Services Vision SEND support services are co-ordinated, integrated and effective. They add value through targeted interventions which lead to sustained quality outcomes for children and young people and build capacity in local schools and settings.	Speech, Language and Communication (SLCN) Services Vision A collaborative, integrated service delivery model is in place which makes best use of resources. The workforce in schools, settings and services is confident and skilled. The outcomes of children and young people with SLC needs are improved.
Early Years SEND Vision A consistent high quality early years SEND offer is available that supports prevention, early intervention and inclusion. Parents will feel supported and confident that their child's needs can be met and local providers will be confident and skilled to support children with SEND appropriately, including those with complex needs.	Post 16 SEND and Preparing for Adulthood Vision Young people with SEND will achieve the best possible learning outcomes and progression into adult life. They will be supported to do this through local provision which has been planned and developed according to their needs and aspirations. <i>This workstream is led and delivered through the Preparing for Adulthood (PfA) Strategy and the SEND PfA Provider Network. A representative sits on the SEND Executive.</i>

Success Indicators and Monitoring

The success of the Strategy will be monitored on a range of proxy quantitative and qualitative indicators relating to the five outcomes on page 4.

:

- a. Number and percentage of population (0-25) with Education, Health and Care(EHC) Plans
- b. Number and percentage of pupils with EHC plans educated at home (EHE)
- c. Number and percentage of appeals to SENDIST (SEND tribunals)
- d. Number and percentage of pupils that attend a state funded school in the same DSPL area as they live in
- e. Number and percentage of providers rated outstanding or good in Leadership and Management by Ofsted
- f. Percentage of children with SEND achieving a good level of development at Early Years Foundation Stage (EYFS)
- g. Percentage gap between children with SEND and those without achieving a good level of development at EYFS
- h. Percentage of pupils with SEND making sufficient progress at the end of Key Stage 2
- i. Percentage gap between pupils with SEND and those without working at the expected level in reading, writing and maths at the end of Key Stage 2
- j. Percentage of pupils with SEND attaining a standard pass at the end of Key Stage 4 and those attaining a strong pass (Attainment 8)
- k. Percentage of pupils with SEND making sufficient progress at the end of Key Stage 4 (Progress 8)
- l. Overall absence levels and absence for pupils with SEND
- m. Persistent absence (PA) levels and PA levels for pupils with SEND
- n. Numbers and percentages of fixed period exclusions and for pupils with SEND
- o. Number and percentages for permanent exclusions and for pupils with SEND
- p. Percentage 16-18 not in education, employment or training (NEET)
- q. Satisfaction of service users in the quality of services received

Baseline data is available it can be found [here](#). An annual report will be produced based on the data above and will include other relevant information regarding progress of workstreams, data from relevant surveys and feedback as well as qualitative information about the quality of partnership working and co-production.

Outcome	Evidenced by:	
	Main Proxy Indicators	Other Evidence
All schools, early years settings, colleges and services provide quality provision that meets the needs of children and young people with SEND locally	a,b,c,d,e	Local offer evaluation framework, including survey monkey and analysis at county and DSPL level
Short and long term outcomes for children and young people with SEND are improved and there is evidence of their achievements and progress socially, emotionally and academically	f,g,h,i,j,k,l,m,n o, p,	Case studies, evidence of impact of services, delivery against outcomes in specifications
Communication between the local authority, parents, children and young people, and schools, early years settings and colleges is good, engendering trust, confidence, respect and constructive partnership working	c, q	Feedback at individual and strategic level. including feedback and surveys of service users, level and nature of complaints, evidence of effective partnership working at area level
Available resources are managed through a transparent approach that is fair, meets local needs and achieves best value for money	a, d, r	Evidence of equity of access to available resources, high needs funding decisions based on evidence, service specifications
The local authority works proactively and collaboratively with parents, young people, schools, early years settings, colleges and other partners using co-production to improve service planning, design, delivery and review	q	Evidence and examples of co-production in practice in line with agreed model and principles. Feedback from parents, young people and other service users, DSPL Area Plans and annual reports
