Headteacher: Mr M Conley BA (Hons), MA, PGCE

Our School vision: One Family, Aiming High, Learning Together with God

Friday 08th May 2026

Dear Parents and Carers of Children in Little Lambs to Year 6,

I am delighted to share some exciting news with you about an important development in our school community. On Friday 22nd May, we are going to have a local company, New Dawn Solar, install 182 solar panels across our school roofing. Not only will we have solar panels installed, the school will benefit from all plug sockets being swapped to Wi-Fi enabled. This will ensure the school is efficient by not leaving technology on unnecessarily.

This project will allow us to generate our own renewable energy, reducing both our carbon footprint and our long-term energy costs. The savings we make can be reinvested directly into the school, helping to further enhance the opportunities and resources we provide for our pupils.

Beyond the financial and environmental benefits, this initiative also creates valuable learning opportunities for our children. It will support our curriculum by helping pupils understand renewable energy, climate change, and the importance of caring for our planet in a real and meaningful way.

We are incredibly proud to be taking this step and to be modelling positive change for our pupils and wider community. This project would not have been possible without the Diocese of St Alban's awarding the grant to us.

If you have any questions, please do contact the school office.

Your Sincerely,

Mr Conley
Headteacher
